**New Saxophone Mouthpiece Gives Musicians Better Response with Dark, Yet Fat Sound**

The PARVATI tenor saxophone mouthpiece, a new innovation from master mouthpiece creator Theo Wanne, brings the vintage sound up to date. The PARVATI combines a low baffle with a True large chamber, creating a big, warm, fat sound with a rich resonating response. The PARVATI raises the bar as the perfect classic mouthpiece.

Theo Wanne specifically designed the PARAVTI to take the best qualities of the vintage Otto Link tenor saxophone mouthpiece and enhance it with his revolutionary True large chamber design. By doing so, the PARVATI creates a dark, yet lively sound.

Theo says, "Our patented True large chamber design melds the world's largest saxophone mouthpiece chamber with rounded inner side walls, chamfered side rails, and a drop floor to open up the sound. The engineering and CNC manufacturing are state-of-the-art and revolutionary."

Members of the Theo Wanne Pro-Council have already put the PARVATI through its paces, testing the mouthpiece during its prototype stage.

Two time Grammy Award Winner Jeff Coffin (Bela Fleck and David Mathews Band) , says "Theo Wanne has done it again! I feel he has brought a new dimension in mouthpieces to us that will not only stand the test of time but will be a benchmark mouthpiece for many, many years to come! Tell the tenor players, the bar has been raised."

Tim Price, world famous saxophone clinician says, "Theo has created a new metal mouthpiece that is totally profound! He truly is one of today's innovators!."

The PARVATI is available directly at [www.theowanne.com/catalog](http://www.theowanne.com/catalog) or from many dealers listed on the Theo Wanne Classic Mouthpiece website. The PARVATI also comes in a stable wood version for and a trial policy is available.

**ABOUT THEO WANNE CLASSIC MOUTHPIECES** – Founded in 2005 by master mouthpiece creator, Theo Wanne, Theo Wanne Classic Mouthpieces manufactures the only True Large Chamber saxophone mouthpieces in the world. The PARVATI is the fourth mouthpiece in Theo's tenor mouthpiece line.
